

I urge that the FCC reject the NAB's petition 04-160. I pay a monthly fee in order to receive all the programing that XM provides me. With the exception of NPR and college radio, the FM and AM broadcast bands have become nothing more then noise. I have subscribed to satellite radio to avoid having to listen to the junk that the NAB members put on the air and they should not be allowed to interfere with my right to purchase and listen to whatever service I choose. I should not have to remind the FCC that they are supposed to be the guardians of the public owned radio spectrum and not business partners with the NAB.

Sincerely;

Michael P. Malik
